Prosperity Shines In Tonopah
With Mines Steadily Growing

This is payday and the enterprising advertisers of the camp are gathering in the golden ducats at a rate that shows the boys have the money to spend and are willing to jar loose in a liberal manner. The postal savings bank found many depositors and the counters of the other banks were monopolized by employees drawing down their regular stipend. The amount is about the same as in former months, or \$260,000, with a greater outlay for skilled mechanics than usual. This was owing to the large amount of installation going on.

The tonnage output was less than former months by a thousand or fifteen hundred tons, but this loss to the underground force was more than offset by the larger checks for top men such as machinists and carpenters. The month of March will show the greatest tonnage in history, unless all signs fail. The diversion created by the dispute between the Butler and West End does not affect the product of either property, as the West End has enough ore in sight west of the main working shaft to keep the new mill going for a period of two years without doing another stroke of development. Yesterday the full thirty stamps of the West End remodelled and enlarged mill went into commission and, after a short stoppage caused by changing a chain drive, the mill ran smoothly and satisfactorily. The Merger has mastered a flow of water and is sinking on the winze from the 1170 and will resume shipments this week after a couple of weeks straightening the shaft and preparing for installing the pump which had been delayed in delivery. The Halifax is stopping and ore is going into the bins as a forerunner of shipments.

The Miners' Union reports delinquent members paying up freely and the meeting this evening will see a larger percentage of paid up members than has been noted for some time.

CARLOAD OF SPUDS
CONDEMNED BY
STATE INSPECTORFORTY PER CENT FOUND TO BE
UNFIT FOR LOCAL CON-
SUMPTION

E. H. Addison, inspector of the Pure Food department of Nevada for Tonopah did not have to wait long to act in his new capacity. Scarcely was the ink dry on his appointment when he received a call from the Silva Bergholdt Produce Company, which had seen a notice in the Bonanza. Mr. Addison was invited to inspect a carload of potatoes that had arrived from Bigelow, Cal., a small station on the narrow gauge railroad near Bishop.

Inspector Addison found the shipment of 246 sacks to be inferior stock and condemned the lot. The consignees wired the shipper to send an agent here to look after the potatoes and this morning W. H. Montgomery, of Goldfield, came over to inquire. He admitted the tubers were not what they should have been as they were scabbed and pitted by the alfalfa beetle left in the ground after the previous crop of hay had been plowed under.

This morning, under the supervision of Inspector Addison, the potatoes were sorted and about 40 per cent found bad. These were sent to the dump.

Before this appointment there was no check on the quality of produce shipped to Tonopah and consumers had no protection. In this case, the consignees bought the potatoes in good faith and paid the freight, but as soon as they saw the contents they took steps for their own protection and the protection of their customers.

FORMER LAWYER IS
INVESTIGATED AS SLAVER

United States officers are investigating the case of Martin Watson, a former Denver lawyer, under arrest at Hawthorne, as to violating the Mann white slave law. He is under arrest on a misdemeanor complaint, sworn to by a woman claiming to be his wife.

Watson came to Hawthorne several months ago and entered into a mining partnership with Syd Tobbs and T. J. Brodigan, brother of the Nevada secretary of state. Shortly after his arrival a woman, accompanied by two children, arrived. She began living with him at Pamelio. The woman, mother of the children, aged 16 and 8 years, is at a local hotel. The woman gives the name of Grace Maynard.

Governor Stuart, of Virginia, is mentioned as a possible candidate for United States Senator.

READY FOR TAP
OF THE GONG ON
THURSDAY NIGHTGOLDFIELD FANS WILL BE MET
AT DEPOT AND ESCORTED
TO THE RINGSIDE

The Tonopah Athletic Club held a rousing meeting last night and completed final arrangements for the big event at the Nevada theater Thursday evening. The club appointed committees to settle a division of work for the reception of Graham and Harrison on their arrival Thursday morning from Goldfield and then to meet the excursionists from that town on the arrival of the special train at 7:30. The boys from the southern camp will march in a body from the depot, headed by their brass band, and will go directly to the ringside in a glare of red fire which will be burned profusely en route. The power company has consented to light the electric arches in the business district so the streets will have a holiday appearance. The special train will bring at least 200 rooters from Goldfield. Every ticket allotted that camp has been sold and unreserved seats have been taken freely. The Goldfield band boys will be given chairs, so their presence will enliven the evening without taking away any of the seats on the diagram.

Graham and George and Lydon and Harrison will weigh in at the Cobweb saloon at 4 o'clock, after which they will submit to a physical examination by Dr. O'Neal, the medical officer of the local management.

All is ready for the tap of the gong and the people of this camp will have the privilege of witnessing one of the best fights ever pulled off here. In discussing this event, lovers of the ring have been fighting over old battles pulled off here and a bet of \$50 was paid yesterday on a dispute as to the Shrenk-Hart event that was starred here for Memorial day, 1907. The bet was as to the number of rounds and the money was paid on reference to the files of the Bonanza, which showed that Hart's seconds threw up the sponge in the twenty-first round.

PAPPAS MAINTAINS HIS
PLEA OF NOT GUILTY

"That's the man who cut me," was the unequivocal identification of Lillian Frazier as she pointed out Bill Pappas in the Justice court yesterday afternoon at the hearing before Justice Dunseath. Pappas insists that he was not at the place in question on the night of the cutting but the evidence was against him and he failed to furnish any proof of an alibi. The case was continued to this afternoon, when arguments will be heard.

PROMISING RECRUIT

Ray Harris, the Tonopah ball player who was recommended to the Venice team of the Pacific Coast league by a Goldfield fan, had his first tryout recently in Venice. The sporting writers of Los Angeles say that although Harris has a lot to learn about baseball, he is a promising recruit. Harris is getting a tryout with Stockton.

Thomas S. Felder, attorney general of Georgia, is a candidate for the unexpired term of the late United States Senator Bacon.

Army of 1800 Unemployed
Driven Out of Sacramento
By Force of Armed Officers

(By Associated Press.)

SACRAMENTO, March 10.—About 1800 unemployed men were driven across the river into Yolo county yesterday after riots that resulted from an attempt of the authorities to remove the army from private property here where the members were encamped. The army, surrounded by officers, is scantily fed, sheltered and demoralized. Sacramento officials refused to allow the army to return, and the disposition of the crowd is unsettled.

The army, when refused by Yolo county authorities an offer of transportation to San Francisco, demanded food and shelter and vowed vengeance upon Sacramento. Nineteen erstwhile leaders remain jailed, charged with vagrancy.

WOMAN DAMAGES
MASTERPIECE
VALUED AT
\$500,000MOST BEAUTIFUL VENUS IS
SLASHED BY FANATICAL
SUFFRAGETTE

(By Associated Press.)

LONDON, March 10.—May Richardson, a militant, slashed the famous "Rokeby Venus," a masterpiece hung in the national gallery, inflicting \$75,000 damages. The picture was worth \$500,000. The gallery was closed after the outrage.

When arraigned Miss Richardson said: "I tried to destroy the picture of the most beautiful woman in mythological history as a protest against the government for destroying Emmeline Pankhurst, the most beautiful character in modern history."

She harangued the court at length, taunting the authorities that were unable to compel her to serve sentences. She had previously been convicted of outrages but released. The magistrate who committed Miss Richardson for trial refused to grant bail.

Strong detachments of militants picketed all railroad stations, planning to rescue Pankhurst on her arrival from Glasgow.

THIRTY-ONE LIVES
SACRIFICED TO
LACK OF FIRE
ESCAPESOWNERS OF BUILDING FAILED
TO COMPLY WITH CITY
ORDINANCES

(By Associated Press.)

ST. LOUIS, March 10.—A death list of thirty-one is the result of careful investigations of the toll by the fire which destroyed the Missouri Athletic Club building yesterday.

The authorities had warned the owners that the building, while not exactly a fire trap, was unsafe, but adequate protection appliances had never been provided, although conditions were remedied somewhat.

Firemen began an exploration of the ruins and recovered three bodies, bringing the total recovered to ten, eight of which were identified.

The dead: L. A. Ruff, A. J. Odegaard, Edwin C. Kessler, John M. Riekey, Chicago; James D. Reilly, William E. Erd, of East St. Louis, Ill.

The names of the missing follow: James McGinnis, Allen Dow, Bert Crouch, Allen Hancock, William E. Decker, John Ritz, William A. Kinser, Thomas Shyne, William Shields, George Goerner, Dean Weatherly, Thomas Wright.

The injured: Theodore Levy, Louisville, Ky.; U. M. Scott, St. Louis; Ben F. Williams, B. C. Holmes, McConnell, Mass.; Mark Hammer, J. L. Hahlben, W. R. Chasley, L. A. Tilley, L. R. Ruff, C. E. Smith, W. A. Humble, D. E. Fitzgerald, all of St. Louis; J. P. English, New York; L. L. Leonard, Lee Wolf, Corrothersville, Mo.; David Plum, A. D. Harned, Chicago; Edward T. Kaub, Chicago; William Koerner, F. W. Williams, New York; T. C. Lyttle, Chicago; Lee Walsh, Charles Schmel, Chicago.

The vaults of the Boatmen's bank were opened and over \$1,300,000 which they contained was found intact.

CAFETERIA SUIT
IS SETTLED BY
SELLING OUT
FOR CASHGOLDFIELD MEN ADJUST A BUSI-
NESS QUARREL OF LONG
STANDING

The suit between Thomas Cline et al., known as the Crystal Cafeteria Catering Company, against J. F. Douglas has been settled out of court after an acrimonious legal warfare extending over a period of four years.

All parties involved are from Goldfield and it is said that an investment of \$50,000 was involved in the settlement, which led to an exchange of allegations of the most damaging character between the partners. Cline contended that after he had advanced most of the money to establish the cafeteria, which was the first in San Francisco, he was led to believe that the investment was a total failure.

Another partner said he sold his stock under the impression that the cafeteria was a losing proposition. Afterwards it developed that the cafeteria was a branch mint and making money faster than one casher could take it in. This led to a suit for recovery of stock. In the course of the proceedings it was brought out that Douglas was interested only as the agent of Mrs. Thomas Landsborough, of Tonopah, who had advanced funds for the purchase of stock in the concern.

The compromise was an agreement by which Cline bought the disputed stock and Douglas and Mrs. Landsborough take cash for their holdings.

Douglas says he is going to establish the finest cafeteria on the coast in San Francisco, where he has rented a ground floor with a space of 70x150 feet, where he is going to install the new business. In order to gain possession Douglas said he had to pay the tenants a total of \$19,000 for their four year leases. The site is between the Pantages and Empress theaters and is one of the best in San Francisco. The company will place \$80,000 in the enterprise.

Douglas was formerly a partner of George Payne in the law business and later manager of the Goldfield hotel, which he organized after the second Goldfield hotel was lost by fire. Tommy Cline was an early day caterer in Goldfield who put all his money in improved real estate and piled up a substantial fortune when others were playing the stock game.

Architect Busy With Plans
For Tonopah Federal Building

(By Associated Press.)

WASHINGTON, D. C., March 10.—The architect's department is busy preparing plans for the proposed Tonopah postoffice suggested by a bill introduced by Senator Pittman and incorporated in the omnibus bill for public buildings. The suggestion that another district of the United States court be established in Nevada leaves the matter of space in doubt as, in the event of this bill going through, it would be found necessary to provide quarters for the officers of the court. In the postoffice department new features have been incorporated to facilitate the handling of parcels post business which has grown to such enormous proportions elsewhere that the department recognizes the necessity for paying special attention to this branch of the work.

Better weighing expedients have been provided and the movement of goods will be as nearly automatic as possible to dispense with manual labor. In a tentative way the plans contemplate placing the working force inside a hollow square surrounded with the usual wickets. The money order and postal savings divisions will be supplied with furniture resembling the interior of a small bank and the employees will have the advantage of every modern device for the dispatch of business. The building will be steam heated. The weather bureau will have spacious offices in a corner of the upper floor, with access to the roof, where the registering devices and the instrument shelter will be established.

If the committee on appropriations acts promptly the site may be selected this fall after bids are invited, and then it rests with the citizens of Tonopah when the work will begin. The department has adopted a new system of rushing public construction instead of allowing improvements to lag and extend over a period of years. The Goldfield appropriation, made seven years ago, has not been applied owing to a quarrel over the location first selected.

ELECTRIC RAILWAY
IN THREE STATES
FOR FIVE YEARSSUBSTANTIAL GAINS WITH NE-
VADA SHOWING LIGHTEST
IN TOTALS

(By Associated Press.)

WASHINGTON, March 10.—Preliminary figures of the forthcoming quinquennial report on the electric railways of the states of Idaho, Nevada, Utah and Wyoming have been given out.

The statistics relate to the years ending December 31 for 1912 and 1907, and June 30 for 1902. The totals include electric light plants operated in connection with electric railways and not separable therefrom, but do not include reports of mixed steam and electric railroads nor railroads under construction during the census year which had not begun operations.

The figures as presented for the states of Idaho, Nevada, Utah and Wyoming show substantial gains for the decade 1902-1912. The operating companies in these four states numbered 12 in 1912 as compared with four in 1902. There were 383 miles of track in 1912 as compared with 92 in 1902. The number of persons employed was 1448 in 1912, the figures for 1902 not being available. The revenue passengers carried in 1912 amounted to 46,770,646 as compared with 11,807,841 in 1902. The gross income for 1912 amounted to \$2,894,371, the figures for 1902 not being available. The operating expenses in 1912 amounted to \$2,097,899, the figures for 1902 also not being available. The horse power of the power plants was 41,256 in 1912 as compared with 960 in 1902. The output of stations in 1912 amounted to 34,846,894 kilowatt hours as compared with 776,125 in 1902. The current purchased in 1912 amounted to 45,163,875 kilowatt hours, the figures for 1902 not being available.

The number of companies operating in Nevada in 1912 were 2 against 1 in 1907, with 11.27 miles of track.

MILKMAN ADMITS
HE KNEW WATER
WAS FURNISHEDTRIED TO RAISE THE STANDARD
BY MIXING PURE WITH
INFERIOR

John Chism, creamery proprietor who was charged Saturday with adulterating milk by adding water, will plead not guilty today, says the Gazette of Monday.

"Mr. Chism readily explained the circumstances. He has been buying milk for re-selling from ten patrons throughout the winter, and three of these were furnishing palpably thin milk. He made objection, and was met with the answer that if he didn't want to buy the milk he didn't have to. It was a case of have to, however, for milk was very scarce. However, the milk of his old patrons was sufficient to bring the thinner milk above the required percentage of butter fat, as shown by his daily Babcock tests.

"The richer milk, however, said Mr. Chism, would not bring the total solids up as it did the butter fat. The total solids test as made by Professor Dinsmore, the complaining witness, revealed the presence of water. Mr. Chism sold the milk as he got it, he says, and supposed from the tests which he made that he was within the requirements."
